

C A P E S T E L

WE TAKE CARE OF YOU

- ❖ Before its reopening, Cap Estel went into a complete cleaning and disinfection of all its rooms and living spaces.
- ❖ All hotel staff are trained in barrier gestures and new operating modes for your safety.
- ❖ Wearing a mask is compulsory for all of our employees and customers following our government's recommendations.
- ❖ Installation of signage panels reminiscent of barrier gestures.
- ❖ Our rooms, like our public places, are cleaned and disinfected every day according to a strict protocol.
- ❖ Respect for the rules of social distancing between the tables of our restaurants "Le Ficus" and "la Table de Patrick Raingard" as well as in between the deckchairs of our swimming pool.
- ❖ Implementation of reinforced cleaning protocols for all our living spaces and contact points (handles, elevator buttons, counters, etc.) which are disinfected at most every two hours.
- ❖ Provision of hydroalcoholic gel in all public places
- ❖ To protect yourself even more, please notify the reception when you leave your room so it can be serviced.
- ❖ Your car can be parked by our valets if you wish: a protective cover for your seat, your steering wheel and your gear lever will be used. Hydroalcoholic gel can cause damage to certain materials so disposable gloves will be worn instead.
- ❖ Upon request at least 48h in advance, the Reception will be happy to organize PCR tests. This service will be in extra.

We are happy to welcome you again at Cap Estel, and we are doing our utmost every day to guarantee your safety so that your stay remains a wonderful one.
